Industrial Ventilation: A Manual of Recommended Practice for Design, 26th Edition

ACGIH® introduces two new Industrial Ventilation Manuals in 2007. *Industrial Ventilation: A Manual of Recommended Practice for Design* (26th edition of *Industrial Ventilation: A Manual of Recommended Practice*, now referred to as the Design Manual) and its new companion, *Industrial Ventilation: A Manual of Recommended Practice for Operation and Maintenance* (referred to as the O&M Manual).

The slight name change to the Design Manual reflects the emphasis that will be placed on the design of industrial ventilation systems in this Manual. In addition to updates to existing chapters, four new chapters have been added providing information on: exposure assessment, preliminary ventilation system design considerations, ventilation system costs, and energy considerations.

Publication #2007
ISBN: 978-1-892177-17-1
© 2007. Member Price: \$98.95 + \$14
Nonmember Price: \$128.95 + \$14

— ALSO AVAILABLE —

Companion Study Guide to Industrial Ventilation: A Manual of Recommended Practice for Design, 26th Edition

Publication #207-26A. ISBN: 978-1-892177-74-4. © 2007. Member Price: \$51.95 + \$14. Nonmember Price: \$78 + \$14

Industrial Ventilation: A Manual of Recommended Practice for Operation and Maintenance

Industrial Ventilation: A Manual of Recommended Practice for Operation and Maintenance is a companion to all future editions of *Industrial Ventilation: A Manual of Recommended Practice for Design*, and focuses on operating and maintaining the industrial ventilation systems once designed. The chapters in this Manual are written for employees and their managers who must use and maintain industrial ventilation systems in the workplace, and provide guidance through all facets of the process. Some of the chapters in this Manual include:

- Construction and Commissioning
- Air System Testing
- Balancing
- Operator Skills and Training
- Monitoring and Maintenance
- Managing Ventilation Systems
- System Modifications

Publication #2106
ISBN: 978-1-892177-86-7
